Election - 7th June 2026

DEPUTY St Brelade

Monty TADIER

Dear Voter,

It is a privilege to stand again to represent the people of St Brelade.

Our parish is a beautiful part of the island, well served with good infrastructure and excellent amenities. Most importantly, we have a close-knit and caring community—something we all value and must preserve.

However, life has becoming harder for many residents. Jersey is increasingly expensive, and for many, salaries and pensions have not kept pace with that cost.

Over the past 5 years, my Reform Jersey colleagues and I have taken decisive action to put more money back into the pockets of working families and pensioners. We have led the way by reducing GP costs, rolling out more free childcare, hot school meals, and targeted help with back-to-school costs. We have extended Pension Plus to more retirees, and we plan to do more (see 'Our Pledges').

To deliver good public services, we need to maintain a strong, sustainable and diversified economy – one that meets the needs of islanders now and in the future. For me, this will mean supporting and developing all our industries, looking for new opportunities and creating a more efficient and effective public sector.

However, some areas still need urgent attention. Jersey's Ferry Service is one of them. Evidence received by my scrutiny panel found that the new ferry contract has significantly increased the cost of living, the wider economy and had a significant negative on people's lives.

My priorities

- **Modernise government administration, especially in healthcare, to improve outcomes.**
- **Revisit the Ferry service provision to reduce freight costs and improve inter-island travel/St Malo travel.**
- **Reform enforcement policy at the planning department.**

Deputy Tadier addresses the crowd at La Pulente, July 2024.

About me

During this term, I have served as Chair of the Economic and International Affairs Scrutiny Panel, examining policy and legislation. We have led reviews into cash usage, sports facilities and Jersey's ferry service and given constructive feedback for improvements.

Alongside this extensive scrutiny work, and my positions on other committees, I have also campaigned in other areas. Two of my recent propositions passed with strong crossbench support: one to protect the right to use cash in Jersey, and the other to prioritise solar panels being put on public buildings rather than on agricultural land. These reflect my commitment to sustainability, economic inclusion and environmental protection.

I continue to champion protection of the coastline, and I was encouraged to see strong public support for our "Beyond the Bay" campaign at La Pulente in July 2024.

It has become clear that aspects of the planning system - especially enforcement - require urgent review to prevent owners circumventing planning requirements.

There are many more issues to address in the next term. For a detailed manifesto, please visit montytadier.je or scan the QR code.

Why vote for me?

"I have the experience, energy and commitment to be an effective States Member—one who builds consensus across the political spectrum and who delivers results. Working as a team, alongside fellow candidate John Young, and my other Reform Jersey colleagues, we will provide the listening and responsive leadership that Jersey deserves."

DEPUTY St Brelade

John YOUNG

Why I am Standing in this election

Jersey is facing serious challenges. Rising living costs and global uncertainty, alongside long standing underinvestment and neglect in critical infrastructure, are placing significant pressure on our community. To meet these challenges, Jersey must move beyond short term thinking and adopt practical, long term strategies.

Jersey needs representatives in the States Assembly with experience and a clear understanding of how government works—people who are prepared to take difficult decisions and deliver for the public. We need capable politicians with long term vision, focused on practical solutions rather than on short term or populist fixes. A vote for me is a vote for that approach.

About Me

My career includes public sector accounting in the UK, senior roles in the Jersey States Treasury and Health Service, CEO of Planning and Environment, managing a local law firm and finances of a financial services business, and compliance. My candidacy is endorsed by Reform Jersey, the island's established Social Democratic Party. In the past two years, Reform Jersey ministers have led three Ministries, delivering results by building consensus. I twice served as an independent States Deputy of St Brelade, one as Minister for the Environment. I extended the Protected Coastal Zone in the Parish, supported parishioners on a wide range of planning matters, and helped to secure important infrastructure improvements.

Young People

Young people must be able to build their future in Jersey with confidence. That means:

- **Access to genuinely affordable housing**
- **Secure and meaningful employment**
- **A good quality of life**

Delivering this requires investment in skills and training, broader economic opportunities, and a commitment to increasing the supply of affordable homes.

Health and Social Care

The Health and Social Care needs of our ageing population are increasing rapidly.

- **Care must be effective, efficient and delivered responsibly.**
- **Primary Care, Hospital and Social Care services must work together far more effectively.**
- **Better integration and joined up delivery are essential to close gaps, improve outcomes and manage costs.**

Finance & Investment

Strong public services depend on stable and sustainable finances. Jersey must generate sufficient revenue to fund essential services and invest for the future. We should be prepared to explore fair ways of widening the local tax base and work constructively with our finance industry. Capital investment — including our new hospital and core infrastructure — is essential if Jersey is to remain resilient and prepared.

Protecting Jersey's Environment

Planning policies developed over decades have protected Jersey's coastline and countryside through the Green Zone and Protected Coastal Zone. Planning processes should be simpler and more efficient, but their purpose must remain firm. The Island Plan needs amendment in detail, but its long term framework is sound and should continue to guide sustainable development. Delivering the long overdue West of Island Planning Framework is necessary to manage essential development, prevent over urbanisation and to protect the character of our parish.

Vote for vision, experience and accountability.

Please Vote John Young on 7th June.

KEY PLEDGES

Reform Jersey Manifesto - Turning the Tide

We believe that the top three priorities of the next government must be to:

- 1. Address the cost of living**
- 2. Prepare Jersey for the challenges of the future**
- 3. Restore accountability to government**

To achieve this, we commit to the following Key Pledges:

Turning the tide

Invest in Our Young People

- Deliver new youth centres in town and Le Squez, and the Fort Regent project
- Develop a new Highlands campus for our on-island Further & Higher Education provision
- Introduce a package of incentives on education and housing to support young people who want to stay in or come back to Jersey

Support Our Families

- Deliver hundreds of family-sized houses for first-time buyers and up-sizers
- Expand support for subsidised childcare so parents can go back to work
- Introduce legislation on 'Online Harms' to protect children

Defend Our Pensioners

- Introduce an enhanced Pensioners' Tax Allowance
- Expand eligibility for the 'Pension Plus' scheme providing cheaper access to doctors, opticians, dentists & chiropody
- Provide comfortable housing for those looking to downsize

Nurture Our Communities

- Deliver the new hospital and reduce waiting lists for operations and mental health services
- Improve how government works with and supports Jersey's charities
- Implement Modern Day Slavery legislation and enhance employment protections

Protect Our Environment

- Protect and enhance our urban and countryside green spaces, and marine environment, in the upcoming Island Plan
- Ensure a 'just transition' by supporting green initiatives that improve affordability and enhance our quality of life
- Produce a new Transport Policy, incorporating the bus service, cycling and active travel infrastructure

Support Jersey's Businesses

- Promote inward investment, with a focus on the industries of the future, digital and green jobs
- Scrap unnecessary red tape that places undue burdens on businesses
- Improve government procurement processes and prioritise local businesses for government contracts

Reduce the Cost of Government

- Significantly reduce the use of consultants by being politically decisive
- Consolidate services and departments where they are being delivered inefficiently
- Fix the government's IT infrastructure that blocks departments from working together

Fix Jersey's Tax System

- Simplify Income Tax by reducing the Marginal Rate and applying it to all taxpayers
- Scrap the upper earnings caps in Social Security Contributions and the Long Term Care charge
- Work with Guernsey and the Isle of Man to ensure our Corporate Tax systems remain competitive and targeted effectively
